Forecast For Wales
Issued by Met Office Exeter
at 0400 on Monday 03 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Wet and windy.

Today:
A dry start for most before a band of rain, sometimes heavy, moves in from the west early morning. The rain bringing strong winds, including possible severe coastal gales. Feeling cold under the rain. Maximum temperature 11 deg C (52 deg F).

Tonight:
The rain clearing east by the evening, leaving a brief clear and dry spell before frequent, heavy, showers move in behind, lasting all night. Winds remaining strong throughout. Minimum temperature 5 deg C (41 deg F).

Tuesday:
A cloudy day with frequent showers, easing slightly as the day progresses. Clear spells begin developing towards the end of the day. Winds remaining strong throughout. Maximum temperature 13 deg C (55 deg F).

Outlook for Wednesday to Friday:
Wednesday, Thursday and Friday mostly a mixture of sunny spells and showers, though thunderstorms are possible on Wednesday. Winds easing through the period but temperatures cold to very cold.
